

44 Years Going Strong

**INSULATED
VINYL SIDING**

Prodigy Insulated Siding

Backed with breathable foam, insulated siding wraps your home's exterior with a continuous blanket of insulation up to 1 1/4" thick. The insulation helps lower your energy bills, adds impact resistance, and makes your home quieter by reducing the transfer of outdoor noise. Both the International Energy Conservation Code (IECC) and ENERGY STAR® have recognized insulated siding for its effective energy performance.
